RARE COIN SETS!

from the distinguished "Limited Edition" Fidelity Collection!

If you now possess any of these coins consider yourself fortunate. Each one is becoming exceedingly rare. Indeed they are virtually non-existent outside of the hands of private collectors. Their possession, in choice collector groupings, and at Fidelity's low prices, are surely a wise investment for the prudent collector of valuable coins, from the standpoint of scarcity, history, interest, value and potential worth!

1960 through 1969 Uncirculated Coin Sets!

Especially made for collectors! Featuring....

1963 and 1964 MINT SPECIMEN SILVER COIN SETS

The last set of 90% silver coins was minted in Philadelphia in 1964. Even now, 90% silver dollars have as much as tripled in value and more. The coins now in use are only 40% silver, with the dime and quarter having no silver content. As silver becomes in shorter supply (which is happening every day), these coins will be still more valuable. Each 5 coin set contains the half dollar, quarter, dime, nickel and penny of that year, in a beautiful display holder that shows both sides of the coins, and identifies the year of the coins! IN ADDITION to the popular 1963 and 1964 sets, Fidelity has a limited supply of uncirculated sets from 1960-69 (1968 and 1969 10-coin sets include the "S" mint penny and "S" mint nickel from the fabulous San Francisco mint, penny, dime, and quarter minted in Philadelphia. "True Blue" collectors items that will disappear quickly).

These chairs are "wall savers" because when opened, and rear feet are against wall, the back-rest remains inches away from wall, thus protecting it from unsightly rub marks and bruises.

LETTER/LEGAL FILE

80¢

in quantity

The SNAP-A-MATIC Letter/Legal File is so easy to set up even the smallest girl in your office can do it instantly. Here's why: There are no flaps or tabs to secure, no tools, tape or glue needed, and no hard to follow instructions. To assemble simply square up the box, push down firmly with both hands—and PRESTO! It sets itself up.

The set-up time SNAP-A-MATIC saves you over conventional files is obvious. Add to that convenience SNAP-A-MATIC's filing flexibility (stores letter-size files one way, legal-size files the other), and low, low price and it's pretty hard to argue. SNAP-A-MATIC gives you more for your record storage dollar than any other file we make. Try it and see.

Color-Plus Nylon Matting

puts an end to floor mopping

Fidelity Color-Plus Mats are made of the finest cut-pile virgin nylon carpeting, permanently micro-bonded to first quality vinyl backed with polyester. They are designed to resist the hard wear of heavy commercial use in high traffic areas. The dense pile (24 oz. weight per sq. yd.—nap height ½ inch) gives the feel of luxury but resists crushing. It removes dirt but is easy to clean; it captures moisture but dries quickly, thus preventing mildew and rot. The underside hugs the floor, won't slip or creep, and it is temperature resistant.

■ Every square yard of the beautiful matting captures a gallon of moisture ■ Shoes, boots, galoshes wipe clean ■ Cleaning costs are reduced ■ Soft, quiet, nylon matting ■ Washable
